

Chethana Attanayake, General Manager, SLT exchanging the agreement with Sivasubramanium Sanjeevan, Chairman, Span Engineering while Tharmarajah Mayooran, Assistant Manager – Marketing, Span Engineering; Kelum Priyantha, Manager Business Development, SLT; Roshan Dayarathna, Deputy General Manager, SLT; Ashani Mahanama, Manager – Marketing and Business Development, Span Engineering; and Chithra Kumari Wijesuriya, Senior Executive Assistant Manager, SLT look on.

SLT Signs Up With Span Engineering

Chethana Attanayake, General Manager, SLT exchanging the agreement with Sivasubramanium Sanjeevan, Chairman, Span Engineering while Tharmarajah Mayooran, Assistant Manager – Marketing, Span Engineering; Kelum Priyantha, Manager Business Development, SLT; Roshan Dayarathna, Deputy General Manager, SLT; Ashani Mahanama, Manager – Marketing and Business Development, Span Engineering; and Chithra Kumari Wijesuriya, Senior Executive Assistant Manager, SLT look on.

Sri Lanka Telecom (SLT) and Span Engineering, entered into an agreement to power ‘Span Tower’, six condominium complexes with total number of 185 units with FTTH Services.

The agreement between the two companies was signed by Chethana Attanayake, General Manager – Western Province Central, on behalf of Sri Lanka Telecom while S Sanjeevan, Chairman, signed on behalf of Span Engineering. Under this

agreement, as the exclusive infrastructure and tel□ecommunication service provider for six condominium complexes, which are currently completed and under construction, SLT will link the apartment complexes with the company’s ultra-fast fiber connectivity. The residents of these apart□ment complexes will have access to Sri Lanka Telecom’s ultra-fast broadband connectivity that provide speed up to 100 Mbps, crystal clear voice communication and high quality entertainment services via company’s IPTV platform, PEO TV.
