

Aberdeen Holdings HiEnergy Services Receives Recognition

Posted on

Shafik Kassim, Group Director of Aberdeen Holdings and MD of HiEnergy Services.

HiEnergy Services, a subsidiary of Aberdeen Holdings, grabbed the limelight at the Sri Lanka Solar Week Awards 2021. HiEnergy Services received seven awards for: 'Solar Solution Provider of the Year', 'Best Company of the Year: Finance', 'Solar Company of the Year: Developer (20 MW)', 'Solar Service Provider of the Year: EPC (Engineering & Designing)', 'Solar Service Provider of the Year: O&M (Operations & Maintenance)', 'Best Consulting Company of the Year: Business', and 'Solar Channel Partner of the Year'.

HiEnergy Services has been a member of Aberdeen Holdings since its inception in 2012, having branches spanning Dubai, Pakistan, and Bangladesh. HiEnergy has installed over 20 MWp (Mega Watt peak – maximum potential output of power) of solar power systems spread across the island and is currently working on projects of a cumulative output magnitude of 36 MWp, expected to be completed by 2023. With its recent installation of a floating solar power system in the University of Jaffna, HiEnergy has become the first and only solar solutions provider to have installed solar power systems of all three categories; groundmounted, rooftop, and floating. With the vision of reducing Sri Lanka's dependence on fossil fuels for electricity generation, HiEnergy Services' completed projects have provided an exceptional impact on reducing CO2 emissions and other harmful greenhouse gases.

every year. The current solar power generation magnitude of HiEnergy (20 MWp) also corresponds to the average annual electricity usage of over 3,707 households.

HiEnergy Services holds a commendable portion of the market share within the solar industry, serving over 500 clients. It has made contributions to the national electricity grid through many of its projects. The organization is fully compliant with the local Electricity Authorities' guidelines. It has gained the recommendations of the sustainable energy authority of Sri Lanka that governs the renewable energy commission of the government.

Shafik Kassim, Director of Aberdeen Holdings, stated, "HiEnergy Services has been a member of the Aberdeen group since its inception. The scale of projects carried out by HiEnergy in the recent past is a true reflection of its potential, and these awards are merely a result of it."

Muhammad Bilal, CEO, HiEnergy Services, said, "I am pleased by the rapid growth that HiEnergy Services have garnered within less than a decade. We are proud of our team, which has worked tirelessly towards achieving our corporate goals consistently. I would also like to thank Aberdeen Holdings for supporting us at various stages throughout the company's evolution since 2012."
