All New Jeep Compass 2012 Now In Sri Lanka

The new Jeep® Compass 4×4, on sale since July 2012, heralds an exciting future for the iconic Jeep brand. Ranjith Pandithage, Chairman – Diesel & Motor Engineering commented, “the all new Jeep Compass offers a credible 4×4 to buyers who are downsising from larger models. The Jeep name has unrivaled credentials in foreign markets and the Compass now has a true premium feel due to the improved quality of its interior and the Grand Cherokee inspired looks. Throw in the high levels of specification you’d normally expect in larger cars, plus a two-year unlimited mileage warranty, and the competitively priced Compass makes owning a Jeep not only attractive but also accessible.”/p>

The 2012 Jeep Compass has undergone a comprehensive redesign to appeal to a wider customer base. It blends strengths from the previous model such as high equipment levels, affordability, interior flexibility and economy, with a sophisticated

design, revised chassis, and a completely revised cabin. As the firm’s first ever compact SUV, the Compass brought the authentic Jeep experience to a new type of buyer. /p>

The Jeep Compass is equipped with four speakers, six CD changers, MP3 compatibility, and Audio Jack input for mobile devices. The 6.5-inch Uconnect touch screen sound system is available as an option on limited, featuring a 30-gigabyte hard drive, allowing operators to format playlists, and view picture files and videos. Voice command feature on the Jeep Uconnect sound system simplifies the driving experience by letting you keep your eyes on the road and your hands on the wheel./p>

The all new Jeep Compass 2012 comes with a 2.4 litre petrol engine featuring dual variable valve timing on the twin overhead camshafts. The electronically controlled timing produces more power, better fuel economy and smoother, quieter operation. The engines also feature an aluminum block, four valves per cylinder, forged crankshaft and connecting rods, intake manifold and exhaust flow control valves. Providing a 172 Break Horse Power and 224 Nm of Torque, the Compass is equipped with Jeeps Freedom Drive I, a full-time active four-wheel drive system featuring a locking mode that reassures performance in low traction conditions./p>

The Compass is constructed around a safety cage structure with an ultra high strength roll-formed steel cross beam and front crumple zones, ensuring the safety of the entire family. Side impact beams are built into the doors for improved protection and there are advanced multi-stage front airbags./p>

MacPherson strut front suspension and a multi-link rear suspension are tuned for a superior ride, handling and noise reduction. And to ensure that the driver maintains control, even during extreme manoeuvres, Electronic Roll Mitigation (ERM) anticipates the potential for wheel lift by monitoring the driver’s steering wheel input and the speed of the vehicle./p>

The all new Jeep Compass 2012 is now available from DIMO, starting from Rs 13.6 million upwards. The Jeep Compass carries a two year comprehensive warranty with unlimited mileage as well as DIMO’s after sales service coupled with its 24 hour Roadside Assistance./p>
