

# Amante Launches Secrets Of Summer

Posted on

Three à la mode designs will bring to life the youthful exuberance of the season, as Amanté launches their Summer collection. The perfect blend of sophisticated design and luxurious comfort, coupled with the vibrancy of the season, the Summer collection follows a highly successful Spring collection launched by amanté earlier this year.

The 'Secrets of Summer' collection offers Sri Lankan consumers a range of fine lingerie to choose from; Vintage Rose, a classic floral design that is the perfect combination of modern styling and old-time charm, comes with a new padded balconette bra and low rise brief. Silver rings and slides attached to the bra with an engraved amanté logo add amanté's trademark sophistication to the design.

Florette brings out the playful spirit of the season, with a darted padded full-covered bra and low rise brief, a camellia print on soft smooth microfiber and rosette bow adding the final touch of perfection to the set. This summer style will be available in both white and navy blue.

A vibrant watercolour print on red makes Melange the more bold choice of the season, bringing out the daring spirit in women. The darted padded wired bra is designed with a sweetheart neckline, ultra soft bonded microfiber straps and is completed with silver rings and slides with the engraved amanté logo. The low rise brief, also carrying the same print on soft microfiber, completes this set design.
