

Blue Ocean Group Of Companies Crowned As Sri Lanka's Best Developer

Sri Lankan real-estate and construction giant the Blue Ocean Group was recognised as the country's finest at Asia Property Awards 2017, which was held in Singapore. The Blue Ocean group was also recognised with special awards for interior design, condo architecture design and sustainable development.

S Thumilan, Chairman, Blue Ocean Group, commenting on receiving the top honours said, "At Blue Ocean Group, striving for excellence is at the core of our business. It is, indeed, a great honour to be duly recognised and awarded on a prestigious international award platform such as Asia Property Awards. It bears testimony to our unfathomable commitment. It also makes us proud to be acknowledged for our outstanding contribution to the Sri Lankan real estate and construction sectors".

Blue Ocean Group's proven excellence in the real estate and construction arena is attributed to the group's emphasis on innovation, strategy and sustainable growth. Reputed for their professionalism, integrity and expertise, the Blue Ocean

Group has been at the forefront of the real estate industry's evolution in Sri Lanka.

Blue Ocean Group's Proven Excellence In The Real Estate And Construction Arena Is Attributed To The Group's Emphasis On Innovation, Strategy And Sustainable Growth.

The group's construction branch being, Link Engineering, is one of the pioneering construction companies in the country with a history of over four decades and currently involved in over 35 construction projects, ranging from condominium and commercial developments to government-funded projects.

According to Thumilan, the Blue Ocean Group is fortunate to have an integral facet in the country's exciting business landscape. "I am indeed proud that my team and I have now etched the name of the Blue Ocean Group strongly in the annals of the country's development history. We are undoubtedly leading the way to the future, having already begun changing the way the corporate and real estate landscape is looking ahead. I have always said that the success of Blue Ocean Group of Companies is in creating organic growth which cascades to effective solutions geared to meet global challenges. This in turn contributes positively to the global development agenda and to the eco-system that we all contribute to," he added.
