

Central Finance introduces innovative saving schemes

Posted on

Central Finance introduces four new saving schemes – CF Savings, CF Super Savings, CF Lama Children's Savings Account, and the CF senior Citizen's Savings Account. An attractive interest rate according to your deposit amount, insurances policies, and zero interest on goods and services purchased are some of the unique features they offer. A higher interest rate is paid for those who save more through CF Savings. The CF Super Savings account offers a break through facility, saving your money according to a specific amount and then transferring it to a fixed deposit. The CF Lama Children's Savings Account is for children under 18 years. It encourages and appreciates children who save and also gift outstanding educational achievements with scholarships. For citizens over 60 years of age the Senior Citizen's account provides them with investment options, special insurance, and other loan facilities.
