Commercial Bank collaborated with LankaPay to launch a national credit and debit card with international acceptance.

This National Card Scheme is an initiative implemented by LankaPay in partnership JCB International. This is the first launch of LankaPay Credit Cards in Sri Lanka.

All domestic transactions via LankaPay cards are routed locally and when the cards are used overseas the transactions are routed via the JCB International network. This initiative will ensure that no foreign exchange outflow takes place for any local card transaction, which could potentially save the country a considerable amount of foreign exchange, the Bank said.

LankaPay cards issued in Sri Lanka by Commercial Bank will feature dual interface functionality, enabling both contact and contactless transactions at point-of-sale terminals connected to the LankaPay payment network. The cards can also be used at all automated teller machines (ATMs) linked to the LankaPay platform and over 42,000 merchant points island-wide. The card will enable Sri Lankans to enjoy JCB's global merchant network comprising of more than 41

million acceptance locations. The Bank will issue LankaPay branded credit cards in the Platinum, Gold and Classic tiers while the debit cards will be in the Platinum and Classic tiers. The debit card will be the first dual interface card in the country where the user can perform both contactless and contact-enabled transactions at any Point of Sale (POS) device.

Sanath Manatunge, MD/CEO, Commercial Bank said: “We are delighted to offer LankaPay credit and debit cards under National Card Scheme with local and global acceptance and support a national initiative which is more pertinent now than ever before. Commercial Bank has been associated with JCB for several years and was one of the first banks in Sri Lanka to acquire both LankaPay Cards and JCB cards under the National Card Scheme. JCB cards have also been accepted at our ATMs for the past four years. We believe that this partnership will further strengthen our relationship with JCB while supporting the national economy at a critical time.”
