ComBank Offers Global Wi-Fi To World Mastercard Holders

(L-R): Sheranga Perera, Senior Specialist Account Management, Mastercard; R B Santosh Kumar, Country Manager Sri Lanka and Maldives, Mastercard exchanging the agreement with Sanath Manatunge, Chief Operating Officer, Commercial Bank; Hasrath Munasinghe, Deputy General Manager Marketing and Thusitha Suraweera, Head of Card Centre, Commercial Bank.

The Commercial Bank of Ceylon has become the first bank in Sri Lanka to offer access to over one million Boingo Wi□Fi hotspots worldwide at no additional charge to holders of World Mastercard credit cards issued by the Bank

This allows eligible persons to enjoy Wi-Fi in locations such as hotels, retail outlets, cafes & restaurants, airports and even on-board flights operated by selected airlines.

Eligible Commercial Bank World Mastercard cardholders can use the Boingo service for up to four devices, including any combination of smartphones, tablets and laptops.

Commenting on the launch of this benefit to cardholders in Sri Lanka, Hasrath Munasinghe, Deputy General Manager Market□ ing said: “Staying connected while traveling overseas is often expen□sive. With Boingo, our World Mastercard holders no longer need to worry about connectivity.”

While, R B Santosh Kumar, Country Manager – Sri Lanka and Maldives, Mastercard said, “Understanding the need to stay connected at all times in today’s fast paced world, we are de□lighted to offer Commercial Bank’s Mastercard cardholders traveling abroad for work and leisure a convenient and cost effective solution to

their Wi-Fi needs.”

Boingo is a Wi-Fi and cellular operator. The Boingo Wi-Finder app makes it easy to find and connect to available hotspots. It also offers Passpoint, a next generation hotspot technology that delivers a seamless and secure connected experience.
