

DFCC Bank's Updated Personal Income Tax Calculator

DFCC Bank has unveiled its easy-to-use, updated, and powerful Personal Income Tax Calculator. Using the DFCC Bank Personal Income Tax Calculator, you can instantly self-assess your annual tax liability from April 2022 to March 2023, using dynamic and comprehensive tools that simplify the tax calculation process. The Calculator has also been updated to align with the latest personal income tax policies introduced by the Inland Revenue Department (IRD) for maximum accuracy in just a few clicks.

Dinesh Jebamani, Vice President of Digital Banking and Strategy at DFCC Bank, said, "As a futuristic and digitally-savvy bank, we want to empower our customers to seamlessly stay abreast of the changes introduced recently concerning personal income tax. Thus, our updated Personal Income Tax Calculator is helping simplify our customers' finances while adding value beyond financial services. In line with our commitment to creating an inclusive financial system, our income tax calculator is free and uncomplicated for anyone to use through our website and is not limited to DFCC Bank customers." DFCC Bank's Personal Income Tax Calculator is designed to be dynamic and comprehensive, allowing users to input their income details and receive an instant estimation of their tax obligations. It is also continuously updated to align with the latest tax regulations and requirements as and when they are amended. This provides a one-stop tool

for individuals to instantly assess and understand their income tax liability and obligations. DFCC Bank is ranked among Business Today's Top 40 Corporates in Sri Lanka.
