

Dialog expands 5G Roaming to 100 countries across 200 partner networks

Dialog Axiata has expanded its 5G roaming footprint to 100 destinations through 200 partner networks worldwide, enabling customers to enjoy seamless, high-speed connectivity across an extensive range of international markets for work, communication, entertainment, and everyday digital services.

The milestone reflects Dialog's continued expansion of its international roaming capabilities. From offering 5G roaming across 50+ destinations through 100+ partners in 2023, Dialog has grown its footprint to 100 destinations supported by 200 partner networks, strengthening access to next-generation mobile experiences

for customers traveling abroad.

Lim Li San, Group COO, Dialog Axiata, said, “As our customers travel, we want their digital experience to move with them. The expansion of our 5G roaming footprint reflects our commitment to deliver seamless, high-speed connectivity beyond Sri Lanka’s borders, enabling customers to stay connected, productive, and entertained wherever they go. This milestone is a testament to the strong partnerships we built globally and our continued focus on bringing world-class innovation and next-generation experience to our customers.”

The expanded footprint provides Dialog customers with greater access to 5G-enabled mobile services while traveling for business, leisure, education, or to stay connected with family and friends. As digital services become increasingly integral to daily life, customers can enjoy faster, more reliable connectivity across a wider range of destinations.

The achievement reinforces Dialog’s brand promise of ‘The Future. Today, it supports its position at the forefront of connectivity innovation. Through continued investment in advanced mobile technologies and global partnerships, Dialog remains focused on delivering world-class mobile experiences for customers in Sri Lanka and abroad.
