The Cfi.co award by Capital Finance International – UK.

Recognizing the use of technology to facilitate a digitally enabled health care service, eChannelling was felicitated with Cfi.co award by Capital Finance International – UK. They were awarded for ‘Setting the best healthcare standard as ICT service provider for Sri Lanka’.

Nalin Perera, Director/Chief Executive Officer, eChannelling said, “We are proud and

privileged to have won this award. It is indeed a significant milestone for us to know that our teams' efforts, hard work, and dedication are being recognized and appreciated on a global scale. We devised eChannelling with a vision to create a platform for every Sri Lankan to access and obtain the best health services digitally, such as to book your doctor, obtain video consultation, drug delivery and many more. With this we have transformed the healthcare service offerings in the country by bridging the gap between service providers and the public through technology and improving effectiveness and efficiency in a user-friendly way. The sheer number of health care partners who have come onboard to eChannelling's platform reflects its success, catering to millions of Sri Lankans residing island wide, thousands living abroad and as well as tourists. We are proud to have digitally empowered society to take it towards our vision to build an info-com and knowledge-rich society."

In bestowing this award, Cfi. co has evaluated the role that eChannelling plays in the transformation of the health care sector in the country and the manner in which it has revolutionized the industry, noting that eChannelling's streamlined digital platform has empowered patients to select the healthcare provider that best suits their needs via phone, web or app for added convenience.

The panel of judges took into consideration the uniqueness of eChannelling's platform, ingenuity in pioneering digital healthcare, consistent service excellence and the value addition this has brought to people's lives by enhancing productivity and modernizing health care. Its portfolio comprises a channeling system and service that has been implemented in more than 200 hospitals, private and Ayurvedic, with over 5,500 doctors, more than 2,000-channeling agents, a hospital information system, member card, and a mobile app.
