Working towards further improving customer convenience, Hatton National Bank signed on as the Internet Gateway Provider to Gamma Pizzakraft Lanka, the single franchisee for Pizza Hut & Taco Bell in Sri Lanka.

The partnership offers Pizza Hut and Taco Bell Sri Lanka state-of-the-art e-commerce functionalities that will enable customers to make seamless, robust, and secure payment experiences via Hatton National Bank's integrated e-commerce payment management service CyberSource.

Gauthami Niranjana, Head of Cards, Hatton National Bank, and Duminda Kulathilake, Director IT of Gamma Pizzakraft Lanka, were present at the partnership signing.

“Given the pace of rapidly advancing technological solutions, we have seen a great turnout from many enterprises adopting the HNB CyberSource facility. Therefore, we are pleased that this mechanism will strengthen the digital revolution by providing an agile, secure, and reliable payment gateway for all Sri Lankans. Moreover, we believe this partnership will further boost confidence in transactions,” Niranjan, Head of Cards, HNB, said.

The state-of-the-art payment gateway facility allows the restaurant chain to streamline customer experiences. Moreover, CyberSource offers Pizza Hut & Taco Bell the facility to provide tokens, the latest version of 3DS, and generate reports in real-time and a wide range of customizable options.

Duminda Kulathilake, Director – IT of Gamma Pizzakraft Lanka, stated, “Our aim has always been to provide exceptional services to all our customers. Hence, to support this goal of further strengthening customer convenience, we are pleased to have partnered with Sri Lanka’s single-largest merchant network provider, including the cutting-edge back-end system provider that enables us to carry out our operations efficiently.”
