

Home Surveillance Solutions from Dialog Smart Home

Dialog introduced a range of surveillance solutions, including indoor and outdoor cameras, to fully comprehensive CCTV solutions that can help make your home safer. The assortment of smart indoor and outdoor surveillance solutions will not require an intrusive installation process. Especially with the range of plug-and-play devices, you need to connect your smart surveillance device to a power source and start using it immediately. It's that simple. The Smart Doorbell ensures that your safety matches the modern age. The HD camera features two-way audio, night vision, a motion detector, cloud recording facilities, and an easily visible Blue Bell button. You can rest assured that your home is equipped with one of the best Smart Doorbells on the market. The dedicated mobile app also notifies you whenever someone is at your door and allows you to see and talk to visitors via two-way communication facilities. If your front door is equipped with a Smart Lock, you can unlock your door remotely through the Smart Doorbell. You can provide up to 20 users with a digital key, so everyone in the family can have their key. The Smart Baby Monitor is the complete indoor surveillance solution for those looking for a wide field of view in full high-definition video. With two-way audio, night vision, and motion detection, keep an eye on your loved ones from anywhere through your smartphone.

The Ranger Outdoor Camera is another brilliant solution Dialog Smart Home offers through its Smart Surveillance range. The ideal device for your security needs includes motion detection, 1080P H265 video recording, and smart color night vision. The device is also weatherproof and facilitates cloud backup, making it an unmatched choice for homeowners looking to add a layer of security to their homes.

Dialog Smart Home, in partnership with Singer, also brings you world-renowned Dahua CCTV solutions. With the option of purchasing CCTV cameras in bundles of two, four, six, or eight, customers can choose how they want to cover their home with CCTV surveillance. The CCTV cameras can capture HD quality footage even at night and can record, save, and retrieve video footage from up to 30 days prior, thanks to their 1TB storage.

Customers can also enjoy additional benefits, such as free delivery and installation throughout the island. Dialog Smart Home has made a name for itself as a one-stop shop for all indoor and outdoor surveillance solutions.

To purchase any product from the Smart Home surveillance solutions range, visit dialog.lk/smart-home or any Dialog Experience Center island-wide.
