GLOBAL FORTUNE 500 COMPANY

PARTNER NETWORK

TELECOM PRESENCE ACROSS 11 COUNTRIES

HUTCH Sri Lanka is leveraging its international pedigree to bring the best of enterprise solutions to help Sri Lankan businesses leapfrog into a new era. As the country pushes forward with its digital ambitions, the company, backed by its parent, the global Fortune 500 giant – CK Hutchison Holdings, sees this as the right time to unlock the global digital expertise it thrives on. The CK Hutchison Group, a world leader in telecommunications operating in 11 countries, is a trailblazer that has spearheaded digital advancements in telecoms across Europe and a catalyst in emerging markets, helping drive digital ambitions.

As Sri Lanka shifts gears towards digital transformation, HUTCH Sri Lanka has aligned its enterprise offerings through its dedicated business arm, which is positioned to cater to the evolving needs of corporates, SMEs, startups, government, and institutional entities.

In a business environment shaped by cost pressures, emerging customer expectations, and the need for operational resilience, there is a demand for fast, scalable, practical, and cost-effective digital services. HUTCH Enterprise, empowered by international best practices and expertise, brings together connectivity and digital services into a single integrated ecosystem, positioning HUTCH as both a connectivity and technology solutions enabler.

The HUTCH Enterprise ecosystem includes a comprehensive suite of services spanning connectivity options, globally acclaimed digital software and applications, and bespoke solutions tailored to specific business requirements. Connectivity solutions such as mobile-for-business, IoT connections, Internet Leased Lines, omni-channel engagement solutions, digital presence services such as domain registration and web development, workplace digitization applications and services, cloud computing, cybersecurity, and API services, all offered in a single stop.

Hamdhy Hassen, Chief Marketing Officer of HUTCH Sri Lanka, said, “Digital transformation and business empowerment are no longer optional; it is essential for business competitiveness and national economic resilience. Through HUTCH Enterprise, we are simplifying the journey by bringing together connectivity and digital solutions in ways that are accessible, practical, and relevant to Sri Lankan businesses. HUTCH is enabling an enterprise servicing ecosystem where any business can efficiently participate in the local or global economy towards Sri Lanka’s ambition of USD 15 billion in the digital economy by 2030. Backed by our global stalwart parent CK Hutchison Holdings, we are well-positioned to deliver world-class solutions to enterprises here locally.”
