INSEE Ecocycle Extends Waste Management Services To BOI

INSEE Ecocycle Lanka, the waste management subsidiary of INSEE Cement, signed an agreement with the Board of Investment – Sri Lanka (BOI), extending its waste management services to BOI for the next 16 years, up to 2035. Mangala B Yapa, Chairman, BOI together with Nandana Ekanayake, Chairman/ CEO, INSEE Cement and Sanjeewa Chulakumara, Director, INSEE Ecocycle Lanka signed the milestone agreement at the BOI head office.

Sanjeewa Chulakumara, the Director, INSEE Ecocycle said, “Our Pre-processing and Coprocessing facilities satisfy all regulatory technical standards. It is globally adopted for the management of waste and is considered a better option than land filling or incineration as it offers a complete solution with zero harmful emission to the environment”.

Mangala B Yapa, Chairman, BOI said, “We greatly appreciate INSEE Ecocycle’s commitment to providing an efficient and effective waste management service that benefits the entire nation in the long term”.

He further added, “INSEE Ecocycle is a professional waste management solutions provider that offer environment-friendly industrial solutions to the public and private institutions, especially for managing hazardous industrial waste. The company has been in the industry for over a decade using a world recognized technology known as “co-processing”.
