

Loox Sound System 420 E

Posted on

Häfele has brought to you the new Loox Sound System 420 E that can be fixed at a convenient home space. Loox Sound System 420 E It can be installed behind bathroom mirrors, inside kitchen cabinets, below work tables and in every conceivable interior space like false ceilings. Nod along to your favorite beats in your vanity room, appreciate an instrumental piece while taking a relaxing bath and groove and pirouette to the music while you chop, saute, and stir in the kitchen! Loox Sound System 420 E remains thoughtfully hidden from direct view at all times making the whole experience even more magical.

Loox is the exclusive brand built by Häfele for furniture lighting. With the widest solutions for LED lighting, the incredibly simple, modular plug-and-play Loox system makes it easier than ever to integrate lighting into your furniture designs. All Loox products are tested and certified to international standards to offer the highest quality.
