Marina Square Takes Tax Free Real Estate Investments To Polonnaruwa

Panduka Angammana, Assistant Sales Manager, Marina Square addressing the priority clients.

The Marina Square Uptown Colombo held a special event together with Hatton National Bank (HNB) to launch their TaxFree Real Estate Investment campaign in the ancient kingdom of Polonnaruwa. The event took place with the participation of around 40 HNB priority clients as well as some of the leading businessmen and professionals from the area. The Tax-Free campaign is a fabulous opportunity for investors and those who seek the convenience of Urban Luxury living in the heart of Tomorrow’s Colombo. They have the amazing opportunity of purchasing Condos at Marina Square on a tax-free basis at the current prices. Marina Square is an investment opportunity brought together by three giants of the industry; Access Engineering, China Harbour Engineering Company and Mustafa Singapore who are regional giants in the industries of construction, infrastructure development and retail. The development embraces and amplifies the concept of Urban Luxury throughout the residential units and the common facilities made available to homeowners. The expansive landscaped walking/jogging tracks, garden spaces, and additional spaces to hang out with friends and family, adds to the experience of Urban Luxury. Infinity pool, club house, game room, unprecedented kids play area and fully equipped gymnasium are all designed with the discerning city dwellers in mind. Parallel to the launch of the Tax-Free campaign, a special loan scheme was introduced by Hatton National Bank, which offers special Home Loan options to prospective clients from the area. Following the presentations, the invitees had the opportunity to have one-on-one discussions with the teams from Marina Square and HNB to get a better understanding of the promotions by the two parties.
