MHI Trucks for Ruhunu Cement

Ruhunu Cement, a gigantic industrial project that came up in southern Sri Lanka purchased two Mitsubishi Wheel Loaders.

Ruhunu Cement has increased production from 18,000 tons to 55,000 tons per month with the installation and commissioning of its new cement production plant. These machines will be working in the ship’s hatch loading clinker. Ruhunu Cement has considered operator comfort by ordering the Loaders with fully enclosed operator’s cab.

The MHI Wheel Loaders were handed over to Nandana Ekanayake, finance manager of Ruhunu Cement by S Nakada, general manager of Mitsubishi Corporation, and Rajah Abeyasinghe, Jt managing director of Allied Trading & Engineering. BT
