# Mobitel introduces Samsung Galaxy Note20 and Note20 Ultra 5G

Mobitel, has announced the introduction of the all new Samsung Galaxy Note20 and Note20 Ultra 5G that will transform the way you work and play.

Designed with the highest aesthetics, the powerful Note series is packed with salient features that will elevate the Smartphone experience, and also empowering you to do more, enjoy more and experience more at anytime from anywhere with the help of the new S Pen and Samsung Notes feature.

The Galaxy Note20 Ultra is available in mystic bronze and mystic black. The Galaxy Note20 is available in mystic bronze, mystic green and mystic gray. Both devices can be purchased online via Mobitel’s website Mobitel.lk. Mobitel also offers attractive installment plans with credit cards as well. They will also provide a data bundle of 100GB with a validity of 30 days for all Mobitel pre-paid and post-paid customers who purchase the device from Mobitel.

Furthermore, with Mobitel’s superior 4G and 4.5G broadband services, the Note Series will provide a seamless smartphone experience be it at work or at home. With Mobitel poised to roll out 5G connectivity in the near future, these 5G-ready devices/range will significantly improve broadband experience, enabling users and businesses to do more.

Mobitel also offers customers the opportunity to experience the wonder of Galaxy Note20 and Note20 Ultra at Mobitel Big M outlets. A favorite among Note loyalists and multi-taskers, the Galaxy Note20 series’ enhanced S Pen offers the ultimate writing experience. To help you capture, edit and share your ideas, Samsung Notes app features auto-save and syncing capabilities.

Microsoft’s ‘Your Phone’ app with Link to Windows integration now enables you to easily access your mobile apps di- rectly from your Windows 10 PC without disrupting your flow.

The Note Series also allows you to turn your phone into the ultimate gaming package with its super-fast processor (7nm) coupled with game booster and responsive 120Hz display, pro- viding a whole different gaming experience. For the first time in the Note series, Galaxy Note20 Ultra 5G offers a vivid and bright dynamic AMOLED 2X display and adaptive 120Hz refresh rate.

The Galaxy Note20 series also packs pro-grade tools to capture stunning photos and create cinematic-style videos and offers advanced multitasking experiences. The 8K camera provides access to ultra-high resolution and a professional-quality video experience.
