Balaji EM, Senior Executive – Business Development, SISA India; Priyankara Bandara, Information Security Engineer, TechCERT; Nalinda Herath, Lead Security Engineer, TechCERT; Dileepa Lathsara, CEO, TechCERT; Abhijeet Singh, Manager, Sales (SAARC), SISA handing over the PCI-DSS certificate to Jayaraja Chandrasekera, Chairman, NSB; S D N Perera, General Manager/CEO; Amal Illesinghe, CIO; Pramith De Zoysa, CISO and Chandana Dissanayake, CM, NSB.

The National Savings Bank has received the Payment Card Industry Data Security Standard (PCI-DSS) certification, the cardholder data security standard accepted worldwide. The Bank received the certificate of compliance for PCI-DSS Version 3.2.1 from Qualified Security Assessor (QSA), SISA. The PCI Security Standards Council (PCISSC), the governing body of PCI-DSS, is a global organization for promoting Payment Card Industry Standards for the safety of cardholder data across the globe.

NSB believes that the continuous improvement of security standards of the Bank to protect cardholder data is of paramount important to ensure protection of customers from card related frauds.

The PCI-DSS compliance certification is a testimony for the measures taken by the Bank to ensure that the Bank's IT systems, processes and procedures relating to cardholder data adhere to the globally accepted security standards.

The PCI-DSS certification compliance demands a high level of commitment from all related operational and technical areas. NSB Team members were up to the task and their high level of commitment has enabled the Bank to become the first State Bank to achieve the PCI-DSS Certification.
