

People's Bank: Leading Sri Lanka's Digital Banking Revolution

People's Bank is at the forefront of Sri Lanka's digital banking revolution, transforming traditional banking through a robust digital ecosystem. Customers can now fulfill nearly all their financial needs without visiting a branch.

Since 2015, People's Bank has gone beyond online banking, offering secure, efficient, and user-friendly platforms that integrate seamlessly with daily life. The Bank's strategy centers on providing specialized tools for different customer segments, ensuring that your "branch" is always in your hand, available 24/7.

People's Wave enables customers to conduct essential banking transactions anytime, anywhere, including fund transfers, bill payments, and account access, with secure authentication. People's Web Retail offers secure 24/7 access to

account info, transactions, fixed deposits, payments, and transfers. People's Pay offers a simple, convenient way to make digital payments, including bill payments and QR code transactions, with features such as easy registration, multi-bank linking, and secure payment storage.

People's Wyn & Web Corporate serves businesses with account management, payroll, payments, and secure trade finance. Self-Banking Units offer 24/7 cash withdrawals, deposits, bill payments, and mobile reloads for ultimate convenience. Beyond technology, People's Bank promotes financial inclusion with tri-language apps and easy self-registration, bringing advanced banking to all Sri Lankans.

Data security is paramount, with international-grade encryption ensuring banking is safe and convenient. People's Bank empowers millions in Sri Lanka to manage their finances safely and efficiently with total autonomy.
