People's Bank reported operating income of 80.8 billion rupees and a post-tax profit of 18.2 billion rupees for the period ended June 30, 2025, despite significant impairment charges on state-owned enterprise exposures.

The Bank's net interest income rose to 69.3 billion rupees during the period, reflecting the timely repricing of assets and liabilities in line with changing market interest rates. Consequently, net interest margins improved to four percent in 2025. Net fees and commissions reached eight billion rupees, recording a 16.8 percent

growth, the highest ever for the same period. Total operating expenses stood at 33.4 billion rupees. Customer deposits reached 3,125.3 billion rupees while net loans stood at 1,592.3 billion. Total assets rose to 3,571.8 billion rupees on a solo basis. As of June 30, 2025, the Bank's Tier I and Total Capital Adequacy Ratios stood at 12 percent and 16.9 percent, respectively. He emphasized the bank's commitment to financial inclusion, supporting SMEs, and improving living standards for all Sri Lankans. Despite challenges in the macroeconomic environment, the bank is focused on strengthening private sector lending, fostering innovation, and empowering entrepreneurs to contribute to the broader economy. The goal is to be the leading financial services provider, known for excellence in customer service and contributions to national development.

Clive Fonseka, CEO/GM, People's Bank, announced that the first half of 2025 marked the highest performance in the bank's history. Notably, the bank reduced its exposure to State-Owned Enterprises (SOEs) from 42.8 percent at the end of 1H 2024 to 26.5 percent in 1H 2025. This strategic shift towards the private sector helped offset the decline in SOE business.
