

People's Leasing sets new benchmark in Corporate Reporting with AI-enabled 13th Integrated Annual Report

L-R: Shiranga Arseculeratne, Manager – Accounts, People's Leasing; Priyankara Gangabadage, Acting Chief Financial Officer, People's Leasing; Sanjeewa Bandaranayake, CEO/GM, People's Leasing; Prof. Ajantha Smarakoon, Chairman, People's Leasing; Narada Fernando, Chairman, People's Bank.

People's Leasing and Finance officially presented its 13th Integrated Annual Report for the financial year 2025/26 to Professor Narada Fernando, Chairman, People's Bank, reaffirming its commitment to transparency, innovation, and sustainable value creation.

The report, themed "A Living Network," reflects the Company's vision of building

meaningful and enduring relationships with customers, employees, business partners, investors, and communities. Inspired by the interconnected mycelium networks found in nature, the theme symbolizes how collaboration, resilience, and shared purpose strengthen long-term growth and collective prosperity.

Continuing its tradition of reporting excellence, the 13th Integrated Annual Report provides a comprehensive overview of the Company's financial and non-financial performance, governance framework, strategic priorities, value creation process, and sustainability initiatives during the year under review.

Building on the digital innovations introduced in the previous reporting cycle, this year's report further enhances stakeholder engagement through advanced AI-powered features. Stakeholders can access corporate information via WhatsApp-based interactions, AI-powered video and text chatbots, ten video-based report summaries, interactive QR codes, intelligent information retrieval tools, and dynamic financial data visualizations. These digital capabilities create a more accessible, engaging, and user-friendly reporting experience, enabling stakeholders to interact with information anytime, anywhere, and in their preferred format.

The report reinforces inclusivity through AI-powered video summaries in Sinhala, Tamil, and English, sign-language-enabled content, and a Braille edition. The presentation, attended by senior representatives of People's Bank and People's Leasing, underscored their shared commitment to sustainable growth and national development.
