Raux Brothers, Celebrating 50 Years Of Timeless Designs

Established in 1959 Raux Brothers, the forerunners in furniture, reach their 50th year of providing their trademark of custom-made, handcrafted, timeless designs.

Raux Brothers offers the flexibility of custom- made designs for varying interiors – the likes of boutique hotels, bungalows, residences and apartment penthouses. In the last decade, Raux Brothers has been offering a professional custom-made design service in collaboration with clients, architects and interior designers. Raux Brothers also imports specialised furniture adding more flavour to their endless catalogue.

Over the years, Raux Brothers has garnered an archive of classic and contemporary furniture designs and along with the celebration of 50 years, Raux Brothers will open a design centre as an extension to its present production house in Piliyandala; a sprawling display of furniture designs and elements under one roof, set within a two acre property, where customers can look forward to a timeless array of furniture in all its splendour and finesse. Providing stylish furniture to varying needs,

may it be to suit a colonial or contemporary time, Raux Brothers celebrates this milestone of 50 years with the aspiration of living up to its own standard of style and timelessness.
