

Samsung Galaxy introduces Note20 and Note20 Ultra 5G

Posted on

The Galaxy Note20 5G series is making adapting to the next normal even easier by building on the heritage of the Note series and delivering an unparalleled experience designed for users that want to get more done and enjoy premium entertainment in the palm of their hands from anywhere they desire. Delivering powerful control over both work and play aspects of user's lives for the first time ever in the industry, Samsung's new Galaxy Note20 and Note20 Ultra - in a timeless premium design and mystic colours, are now available for purchase in Sri Lanka.

To work faster and smarter the Galaxy Note20 series brings the S Pen and Samsung Notes feature for acing all those presentations even while working from home.

The Galaxy Note20 Ultra's 120Hz display enhances the experience even more for life-like precision whether you're jotting down notes in a meeting or scribbling down a grocery list. The S Pen has evolved to become the ultimate productivity

companion.

Samsung's partnership with Microsoft reaches new heights on the Galaxy Note20 series. With Microsoft's Your Phone app and Link to Windows integration on select Samsung phones, users can sync their Galaxy smartphone to their Windows 10 PC to share messages, photos, notifications and calendar reminders in almost real-time.

The Galaxy Note20 series introduces a suite of new experiences for a more continuous productivity flows.

Note20 series lets you relive your fondest memories in high-fidelity with Pro Video mode. It allows to shoot like a movie director in 8K at 24 frames per second to give your home videos that cinematic look. Alternatively, shoot in Full HD at 120 frames per second and play back the video at 120Hz to get a super smooth look.

The Galaxy Note20 as well as Note20 Ultra are 5G ready, which makes them compatible for 5G usage on commercial availability of the 5G network in Sri Lanka.

Samsung Electronics revealed five new power devices that seamlessly integrate to empower consumers navigating a rapidly changing world: Galaxy Note20 and Galaxy Note20 Ultra, the most powerful Note series yet; Tab S7 and S7+, versatile tablets for productivity and creativity; Galaxy Watch3, a premium smartwatch along with advanced health features; Galaxy Buds Live, stylish and ergonomic earbuds with amazing sound quality; and Galaxy Z Fold2, the next generation foldable smartphone with enhanced refinements.

Alone, these devices are powerful tools to help you maximize work and play. Together, as part of the Galaxy ecosystem, they work together seamlessly so you can spend your time focused on what matters the most.
