SAYERLACK PU Brings The Best Protection For Interior Furniture

JAT Holdings introduces SAYERLACK Polyurethane (PU), by SAYERLACK, a trusted solution for all wooden interior furniture and floors. PU coatings are scratch resistant, chemical resistant and can withstand heat and abrasion, while also retaining an excellent glossy finish for a longer period of time.

“SAYERLACK PU is an advanced Italian technology to hit the Sri Lankan market. All finishes are ensured to transform wood into any aesthetic design. From the richest natural look, to any colored stain”, said Nalan Rupasinghe, the Brand Manager, JAT Holdings.

SAYERLACK PU has a range of natural finishes to choose from such as Teak, Mahogany, Walnut, Antique Walnut, Dark Mahogany, Cherry, Walnut Brown, Pale Walnut and other pigmented colors. A range of special effect finishes from Marble, Whitewash finish, Filament finish, Wash finish, Cracklet finish, Dusty glaze finish and many pigmented colors are available to choose from.

“The finishes will leave you breathless, owing to the super interesting colors and finishes that you can come up with for your interior furniture. Not only will the coating look extravagant but the benefits are there too. We advise all Sri Lankan customers to visit the JAT Tech Centers in Thalawathugoda, Nawala, Moratuwa, Kolpetty or Kiribathgoda to browse through and understand the finishes available before making a choice on their furniture. Focusing on promoting as well as uplifting the wood coating industry in Sri Lanka, the Company has commenced the process of partnering with leading furniture manufactures across the island to provide SAYERLACK PU coated interior furniture for our customers,” Rupasinghe further added.
