

Singer Sri Lanka Upgrades To IFS Applications 10

Posted on

(L-R): Thanuja Seneviratne, Senior Manager IT, Singer Sri Lanka; Shanaz Sheriff, Head of Key Accounts, IFS; Kapila Perera, Director IT, Singer Sri Lanka; Mahesh Wijewardene, Group CEO, Singer Sri Lanka; Shiraz Lye, Managing Director/VP Sales and Marketing, IFS South Asia; Asanga Marasinghe, Country Director, IFS Bangladesh and Pakistan; and Manomi De Silva, Senior Manager – Consulting, IFS

IFS, the global enterprise applications company, proudly announces that Singer Sri Lanka has chosen IFS Applications as its central ERP platform to boost productivity and decision-making.

IFS Applications 10 will empower Singer Sri Lanka to consolidate the company's business processes and provide full visibility in real time for its head office. Drawing on the browser-based IFS Aurena user experience, staff will be able to work efficiently regardless of driving user productivity, location, and performance.

The IFS solution will support all major business processes, including branch management, demand planning, inventory management, distribution and route planning, after-sales service management, financials, and human capital management (HCM) and payroll.

"We are excited to embark on this journey of digital transformation with IFS, whose technology has been supporting our operations since 2006," said Mahesh Wijewardene, CEO, Singer Sri Lanka Group. "A diversified business such as ours requires robust and userfriendly tools to ensure there is only one version of the truth and that we are using

reliable, real-time data to inform our decision-making. We look forward to building a business technology platform that will help our company through our next phase of profitable growth.”

Shiraz Lye, the Managing Director and Vice President of Sales, IFS South Asia, added, “We are proud of the continued trust that Singer has placed in our people and products. Our solutions have been designed to power complex businesses running multi-site operations, providing decision-makers with the right data to make informed decisions. Our intuitive user experience, which can be picked up and used on any device at any time, ensures data capture is quick and easy. We look forward to working with Singer to deliver swift and efficient implementation project.”
