

# SLT Fibre To Power

*(L-R): Sameera Ekanayake, Marketing Officer, SLT; T Purusoththaman, Project Engineer, Idieal Engineering; N Kajamaran, Site Engineer, Idieal Engineering; K Selvapalan, Managing Director, Idieal Engineering exchanging the MoU with Kiththi Perera, Chief Executive Officer, SLT; Imantha Wijekoon, Chief Sales and Regional Officer, SLT; Chethana Attanayake, General Manager, SLT; Shiromi Saputhanthri, Legal Officer, SLT and Kelum Priyantha, Manager, SLT.*

Sri Lanka Telecom entered into a partnership with the professional engineering firm, Idieal Engineering, which provides a comprehensive range of engineering and related services.

Under the agreement, SLT will be the total digital services provider for the 15-storey luxury apartment with 99 units, powered via the their state-of-the-art fiber infrastructure that will serve as the apartment's communications backbone.

The agreement was signed by authorized signatories from the two companies, K Selvapalan, Managing Director, Idieal Engineering and Kiththi Perera, Chief Executive Officer, SLT. The agreement signing was attended by officials from both Idieal Engineering and SLT who were involved in the project.

Commenting on the partnership, K Selvapalan, Managing Director, Idieal Engineering, stated, "We are confident that we will be able to achieve our business goals by providing unmatched, innovative and world-class experiences to the (L-R): Sameera Ekanayake, Marketing Officer, SLT; T Purusoththaman, Project Engineer, Idieal Engineering; N Kajamaran, Site Engineer, Idieal Engineering; K Selvapalan, Managing Director, Idieal Engineering exchanging the MoU with Kiththi Perera, Chief Executive Officer, SLT; Imantha Wijekoon, Chief Sales and Regional Officer, SLT; Chethana Attanayake, General Manager, SLT; Shiromi Saputhanthri, Legal Officer, SLT and Kelum Priyantha, Manager, SLT. residents of our newest apart[ment] since we have partnered with the very best – Sri Lanka Telecom. I am certain that our partnership with SLT will help to gain mutual benefits not only to us and SLT, but also to our future residents."

Kiththi Perera, CEO, SLT stated, "We are honored to have been selected as the Digital Service Provider for this newest mega project by a leading construction

company in the country as Idieal Engineering which is steadily consolidating its foundations to position itself for growth in the future. We thank the Company for the confidence that they have placed on us. We are confident that we will be able to add value to them as well as their clients through our experience and expertise in ICT and digital services as our goal of becoming Sri Lanka's preferred digital lifestyle provider by the year 2022. Further we are honored to guide the nation and its people in to an exciting new digital world."

SLT will be powering the entire apartment with their fibre-to-the-home infrastructure that will provide residents with ultra-fast internet connectivity with download speeds of up to 100 Mbps, crystal clear voice communications as well as access to high definition (HD) TV content via PEO TV. SLT's robust and reliable ICT services will pave the way to revolutionize the digital lifestyle experience of the building's residents.
