

SLT Introduces PEO TV Go App

Sri Lanka Telecom (SLT) launched its latest revolutionary PEO TV Go facility enabling a new television experience for the customers by granting the PEO TV access onto their own mobile phones, computers and tablets.

This will be the most comfortable television experience for customers as they will be able to watch TV at any preferable time irrespective of the place they are settled in while using any desired network. Initially, the existing PEO TV customers are entitled for this service in two steps. As the first step, including the TV, they will receive the service onto two other devices; a mobile phone and a computer or a tablet. The PEO TV Go App can be downloaded via Google Play Store for Android users and from Apple Store for Apple users.

The service will be activated with zero additional charges whereas the monthly rental fee will be inclusive of all applicable Governmental taxes.

Over 50 Sri Lankan and foreign channels are presented. The viewer can select their channels in parallel with the requirement or choice of their own. The On Demand facility permits easy access to a collection of videos, films, musical and educational programs. The number of permitted devices depends on the package the customer uses and the monthly rental fee will adjust accordingly. PEO TV Go is offered to PEO TV Titanium package holders on a complementary basis.

The Go App was officially launched by P G Kumarasinghe Sirisena, Group Chairman, SLT. Also present at the event were Ajantha Seneviratne, Group Chief Marketing Officer, SLT and CEO, SLT VisionCom; Kiththi Perera, CEO/COO, SLT, Filip Remskar, CEO, Beenius and other officials.

Ajantha Seneviratne, Group Chief Marketing Officer, SLT and CEO, SLT VisionCom addressing the gathering stated that PEO TV stands for Personalized Entertainment Option so it is personalized with a lot of features built into the system.

PEO TV not only allows users to watch Sri Lankan or foreign channels, but it gives access to an array of services such as: LIVE TV, SVOD (Subscription Video on Demand), TSTV (Time Shift TV), MOD (Music on Demand), VOD (Video on Demand), EOD (Education on Demand), TVOD (TV on Demand), REWIND TV,

Start Over TV, Parental Control, Favorites, Reminders, Program Guide and more.

If a user wants to watch TV elsewhere and anywhere the Go app allows users to watch their favorite program without uninterrupted service.
