SLT-MOBITEL Advanced Fiber and ICT Solutions Strengthen World Trade Center Colombo Infrastructure

(L-R): From WTC management, Damsara Galappatthy, Marketing Manager; Chamith Adikara, Executive Electrical Engineer; Jeewaka Samarasekara, Head of Facilities Management; Pravir Samarasinghe, Director/Group CEO. From SLT Management Janaka Abeysinghe, Chief Executive Officer; Chethana Attanayake, General Manager/Western Province Central; Kelum Priyantha, Senior Manager (Marketing) Multitenant Business Development, Kasuni Dilhara, Marketing Officer.

SLT-MOBITEL signed an agreement with Overseas Realty (Ceylon) (ORCL) to facilitate SLT-MOBITEL Fibre solutions and strengthen the building's ICT infrastructure optimized with new-age technologies.

Janaka Abeysinghe, Chief Executive Officer, SLT, and Pravir Samarasinghe, Director/Group CEO of Overseas Realty (Ceylon), signed the agreement to commence work. At the same time, senior officials from SLT-MOBI- TEL and WTC witnessed the endorsement.

As the project's initial phase, SLT-MOBITEL will provide Fiber connectivity to over 65 units located at the lower block of the World Trade Center, Colombo, enabling building management to activate state-of-the-art SLT-MOBITEL fiber solutions.

Commenting on the partnership Pravir Samarasinghe, the Director/Group CEO of Overseas Realty (Ceylon) said, “As the most sought-after business address in Sri Lanka with the largest B2B network under one roof, it is vital to work with a reliable ICT solutions provider. Al- lowing tenants to access comprehensive fiber and ICT solutions with unmatched and future-oriented service capabilities, we are very pleased to work with SLT- MOBITEL, the pioneering ICT solutions provider in Sri Lanka.”

Janaka Abeysinghe, Chief Executive Officer of SLT, noted, “SLT-MOBITEL has the services, technology, and operational expertise to implement state-of-the-art futuristic ICT and fiber solutions successfully. WTCManagement has recognized our capabilities and partnered to deliver a purpose-built, SLT- MOBITEL total fiber solution, delivering a pre- mium experience for all tenants.”

SLT-MOBITEL understands that commercial buildings such as the WTC continue to evolve, so it is vital to cater to technological advances, presenting new opportunities for businesses to maximize efficiency and productivity. SLT-MOBITEL Fibre solutions provide smart building solutions of the future, integrating people and systems dynamically and functionally.
