

SLT-MOBITEL delivers advanced fibre connectivity to Windsta City Apartments

Posted on

SLT-MOBITEL has signed an agreement with Hestia Engineering to deliver next-generation fibre connectivity to the Windsta City Apartments in Dehiwala.

The agreement was formalised between Sugath R. De Silva, GM – Consumer Business Support of SLT, and Director, Hestia Engineering (in the presence of several other officials from both companies).

The strategic deployment of fibre technology reaffirms SLT-MOBITEL's ongoing mission to empower residents with cutting-edge connectivity, paving the way for fully integrated digital homes that support entertainment, education, and work-from-home demands.

Under the partnership, SLT-MOBITEL will equip all ten residences at Windsta City with state-of-the-art fibre infrastructure, enabling ultra-fast internet, crystal-clear voice solutions, and high-definition entertainment via PEO TV and unlocking smarter, seamless living that adapts to the needs of modern families.

The agreement underscores both companies' commitment to smart living. Through its partnership with SLT-MOBITEL, Hestia Engineering aims to create well-connected homes that meet modern digital needs.
