We are the only provider that combines the strengths of islandwide fixed and mobile networks including Business Fibre, the only purpose-built data centre, and the Multi-Cloud, to bring you best-in-class seamless enterprise solutions to take your business intelligence to the next level.

‘SLT-MOBITEL Enterprise’ from the National ICT Solutions Provider and undisputed tech leader unveiled the power of seamless Fixed and Mobile enterprise solutions as the one-stop

total solution provider to transform businesses in the digital era.

Today, enterprises demand innovative and reliable solutions to unlock growth and deliver profitability and superior customer experience while being future-ready.

These businesses also continuously look for secure connectivity and digital platforms that will contribute to their efficiency and competitiveness.

SLT-MOBITEL Enterprise combines island-wide Fixed and Mobile networks delivering best-in-class integrated enterprise solutions and taking business intelligence to the next level.

Having a robust base of over nine million customers across fixed and mobile ICT services, including domestic users, small and medium enterprises (SMEs), retail customers, multinationals and enterprises, public sector institutions, and other operators and wholesale customers as SLTM Enterprise products and services portfolio remains unmatched. The scope of products and services ranges from domestic to international, going beyond connectivity to provide fully-fledged tech solutions such as cloud and managed services.

With this stellar expertise, SLT-MOBITEL Fixed Enterprise solutions are primed to cater to large and medium enterprises' needs for efficiency and innovation with service offerings such as Networking, CloudServices, Digital Services, Data Centre, Managed Services, Enterprise Voice and Internet, and Cyber Security. These solutions will also serve as a catalyst for growth and transformation for enterprises.

As enterprises seek to leverage mobility for their competitive advantage, especially during the current turbulent and challenging environment, SLT-MOBITEL Mobile Enterprise solutions address the development and usage of mobile applications, security and compliance requirements, offer tailor-made solutions with industry-leading products and technologies, helping businesses focus on their core operations.

Under the portfolio of SLT- MOBITEL Mobile Enterprise solutions, mLink, mSMS, mAdvertising, mLocator, mCallcenter, and mClicktoCall are among unique service offerings.
