SLT-MOBITEL Enterprise maps pathway for organizations to accelerate digital transformation with a game-changing Multi-Cloud journey

S. Navaneethan, General Manager, Digital Business Solutions, Sri Lanka Telecom.

Akaza Multi-Cloud Service from SLT-MOBITEL Enterprise provides businesses with numerous advantages. The robust multi-cloud platform, featuring VMware, Microsoft Azure Stack, and Oracle PCA, stands out in the market. Unlike public clouds, it offers multiple private cloud environments hosted in the secure Tier III Data Center in Sri Lanka.

S. Navaneethan, General Manager, Digital Business Solutions, Sri Lanka Telecom, sheds light on the transformative power of the Akaza Multi-Cloud service from SLT-MOBITEL Enterprise, emphasizing its role in empowering businesses to optimize their operations, enhance efficiency, and stay ahead in today's rapidly evolving digital landscape.

Businesses can seamlessly migrate workloads to our cloud without altering their virtualization technology, security architecture, application code, or governance policies. With Akaza Multi-Cloud from SLT-MOBITEL Enterprise, companies experience enhanced performance, reduced IT complexity, and improved scalability. Our pay-as-you-grow model optimises cost, eliminating the need for long-term hardware investments. Resource provisioning is accelerated, with fast turnaround times compared to traditional methods. Our cloud platform partners, VMware, Microsoft, and Oracle offer robust security features, guaranteeing data protection within our private cloud environment.

By embracing Akaza Multi-Cloud from SLT-MOBITEL Enterprise, businesses can drive their digital transformation journey, benefiting from improved performance, reduced costs, and enhanced security. Our comprehensive multi-cloud solution empowers businesses to thrive in the digital era.

In today's business landscape, digital transformation is essential worldwide, and Akaza Multi-Cloud from SLT-MOBITEL Enterprise drives digital transformation. Amid the pandemic and economic crises, businesses recognize the need for digital technologies to stay competitive and meet evolving customer needs. Adopting cloud technology is the first step, and SLT-MOBITEL Enterprise provides a comprehensive cloud service. Moving to the cloud enhances customer experiences, improves service delivery, reduces time to market, and offers convenient access to services globally.

Leveraging the Akaza Multi-Cloud from SLT-MOBITEL Enterprise, organizations gain benefits that accelerate digital transformation. Our cloud platform offers tools tailored for digital initiatives, avoiding costly infrastructure investments. SLT-

MOBITEL Enterprise manages the entire technology stack, enabling organizations to focus on core business goals.

As a trusted technology partner, SLT-MOBITEL Enterprise empowers customers with managed services and expertise in executing digital strategies. Our cloud environment, built on mature providers like Microsoft Azure, offers tools within a private cloud, driving efficient business outcomes. Akaza Multi-Cloud from SLT-MOBITEL Enterprise provides a hybrid cloud environment on Microsoft Azure and Azure Stack Hub, leveraging private and public resources. This flexibility optimizes operations and allows experimentation without significant upfront costs.

SLT-MOBITEL Enterprise enables businesses of all sizes and industries to achieve digital transformation goals through our mature cloud solutions. With Akaza Multi-Cloud Journey, organizations can accelerate transformation and enhance productivity. We support companies in selecting the right cloud solutions tailored to their business needs. With our private cloud environment and integrated network connectivity, we offer a unique advantage over other providers. Organizations enjoy a seamless transition to our multi-cloud platform without changing the architecture or security policies, empowering them to build their private cloud. Our services encompass infrastructure, platforms, and software as a service, enabling customers to leverage digital tools without upfront costs. We manage the technology while providing end-to-end support, allowing customers to focus on their core business.

SLT-MOBITEL Enterprise’s Akaza Multi-Cloud platform includes VMware, Microsoft Azure Stack, and Oracle PCA for high-quality security and compliance. The hybrid cloud environment allows customers to choose the best tools for their transformation journey with scalability and agility. Businesses benefit from pay-as-you-grow models, eliminating significant upfront investments. Immediate provisioning ensures quick resource access, enabling organizations to swiftly meet dynamic needs and adapt to market changes.

SLT-MOBITEL Enterprise ensures secure migration to the multi-cloud environment with robust security measures. We have implemented multi-layered security, from the global Internet to individual customers and cloud platforms. Partnerships with VMware, Azure, and Oracle enable us to offer the same level of protection as their public cloud services.

Direct access to vendors allows us to address security issues promptly. We deploy firewalls, DDoS protection, and SDN architectures for enhanced security and

isolation. Compliance with global standards and certifications ensures our multi-cloud environment meets the highest security benchmarks and provides data residency within the country. Managed services provide additional security and peace of mind. Our dedicated security operation centres (SOCs) proactively monitor and address threats. Our advanced tools enable sophisticated backup and restore solutions across multiple platforms, ensuring data protection and compliance.

SLT-MOBITEL Enterprise supports organizations’ digital transformation journey by providing a secure multi-cloud environment. With our expertise, businesses can focus on core activities while we handle operational issues. We aim to be a trusted partner, empowering companies to thrive in the digital age.
