SLT-MOBITEL Recognized At UiPath Automation Excellence Awards 2021

SLT-MOBITEL, the National ICT Solutions Provider, has received Jury Recognition at the UiPath Automation Excellence Awards 2021, organized in association with The Economic Times.

The third edition of the UiPath Automation Excellence Awards recognized and celebrated UiPath customers in India and South Asia for the business impact of driving innovation using automation in their respective fields. Thirty-one winners

across 15 categories were felicitated in their quest to become fully automated enterprises.

An eminent and expert panel of global adjudicators bestowed Jury Recognition on SLT-MOBITEL in the category Automation Excellence – Sri Lanka, selecting the organization as among the best performers in Sri Lanka and South Asian Region. The jurors evaluated the nominees based on impact concerning project/process, business, and strategy levels.

“RPA was an initiative towards operational excellence in SLT’s Digital Transformation journey. We opted for UiPath as the software enabler and could justify this investment with significant saving time and cost during the last year. We are truly honored to receive this award”, stated Tilak Gamalath, Chief Officer – Information, SLT.

SLT-MOBITEL’s deployment of Robotic Process Automation (RPA) solutions sought to reinforce its commitment to digital transformation, especially optimizing operations for enterprise customers. With RPA functionalities, customers can transform processes by integrating automation solutions resulting in improved productivity and digital maturity.

UiPath is an enterprise automation software company built on a vision to deliver the Fully Automated Enterprise, where companies use automation to unlock their most significant potential. UiPath offers an end-to-end platform for automation, combining the leading Robotic Process Automation solution with a full suite of capabilities that enable every organization to scale digital business operations rapidly. It is a great honor that SLT has been recognized by such a leading enterprise automation software company.
