SLT-MOBITEL emerged victorious at the National Best Quality ICT Awards (NBQSA) 2024. Three awards across diverse categories recognized the company's dedication to innovation.

SLT-MOBITEL's winning projects showcased the company's commitment to advancing various sectors: 'SenseGrid IoT Solution', which received a Silver award in the Industrial – Manufacturing category. Developed by The Embryo Innovation Team, this solution empowers the manufacturing industry by providing real-time data collection and analysis and optimizing production processes. 'Energen', created by the Digital Projects Team, was honored with a Bronze award in the Sustainability and Environment category.

This initiative addresses environmental concerns by promoting energy efficiency and empowering informed decision-making. Lastly, 'AkazaHR', developed by the Enterprise Digital Products Team in partnership with PeoplesHR, earned a Merit award in the ICT Service Solutions category. This product streamlines human resource management, enhancing the overall employee experience.

On behalf of the company, M. I. Deen, Deputy CIO, Ishari Siriwardane, General Manager-Digital Transformation Projects; Selvendiran Vidyapan, General Manager-Enterprise & SME Products; Asela Eranda, Deputy General Manager Lab, Dinesh Perera, Deputy General Manager-Digital Projects, Dinusha Rajapaksha, Deputy General Manager-Enterprise Digital

Products, and several other SLT-MOBITEL officials, participated and accepted the respective awards at the NBQSA 2024.

This recognition reflects SLT-MOBITEL's unwavering commitment to developing cutting-edge solutions contributing to Sri Lanka's economic and technological advancement.
