SLT-MOBITEL Unveils Digital Portal to Obtain New Fiber Connections

---

SLT-MOBITEL announced the unveiling of a new digital portal to obtain SLT-MOBITEL Fiber connections.

The portal that can be accessed through sltmobitel.lk, provides an attractive solution to get a new fiber connection within a minimum period for its customers.

Customers can promptly process their new SLT-MOBITEL fiber connection order through the portal and will no longer require a visit to an SLT-MOBITEL Regional office.

The portal also offers a user-friendly approach with a simple interface. Adding further value, new fiber connections are offered at a discounted price of 10,000 rupees via the digital platform.

Prabhath Dahanayake, Chief Marketing Officer of SLT, said, “Fiber is the backbone for the growth of digital Sri Lanka, and it is only natural that customers expect to be able to obtain their connections without relying on physical visits. Furthermore, SLT-MOBITEL is committed to making the customer experience and onboarding journey to be as seamless and easy as possible, considering the current restrictions on travel that many of them are facing at the moment. I invite customers to sign up with SLT-MOBITEL Fiber and enter a new world of digital acceleration.”

Customers are assured of robust SLT-MOBITEL Fiber connections, with unmatched uninterrupted download speeds of up to 100 to 1000 Mbps, reliability, and best-in-class broadband technology.

Users can connect to multiple devices, experiencing endless possibilities and unlimited opportunities. SLT-MOBITEL offers a future-ready network with innovativeness for digitally connected homes. It also enables entertainment with high-definition picture quality and streaming through SLT-MOBITEL PEOTV.
