

The Next Generation Apple iPhones Unveiled By Mobitel At X Station

Mobitel, the national mobile service provider of Sri Lanka, unveiled the latest range of Apple iPhones at the X Station. The launch of the highly anticipated iPhones celebrated the relationship Mobitel shares with the internationally acclaimed brand, Apple.

Bringing the latest Apple iPhone products to the Sri Lankan market, Mobitel unveiled iPhone XS, iPhone XS Max and iPhone XR. The latest iPhones offer innovative technologies to Apple customers. Recognised as the most advanced iPhones to date, iPhone XS as well as iPhone XS Max contain a Super Retina display with custom-built OLED panels for a HDR display. The A12 Bionic chip with next-generation Neural Engine uses real-time machine learning to transform the way owners use the iPhones. The 12MP dual-camera system features an exciting array of options to better capture photographs while the iOS 12 mobile operating system contains powerful tools to personalise the iPhone.

Mobitel Unveiled iPhone XS, iPhone XS Max And iPhone XR.

The 6.1-inch Liquid Retina display in the iPhone XR is the most advanced LCD in a smartphone. The iPhone XR is also equipped with an A12 Bionic Chip with next generation Neural Engine, 12MP camera system and an iOS 12 operating system.

The three iPhones are secured with an advanced Face ID system that allows users unlock the iPhone and access its applications with a glance.
