Sri Lanka Telecom (SLT) signed an agreement with Tokyo Cement Company (Lanka) PLC, to provide the company with a total voice communication solution featuring voice services, PABX infrastructure, broadband internet and dedicated high capacity digital E1 connectivity for an inter-branch communication system to minimise costs. It is the first cement company in Sri Lanka to be awarded the Sri Lanka Standards SLS 515 certification for Tokyo Super Masonry cement, by the

Sri Lanka Standards Institution. Tokyo Cement also boasts of an ISO9002 and a 14001 certification, for the manufacture and distribution of Portland cement.

S R Gnanam, Managing Director, Tokyo Cement, said, "The total voice communication solution that is being provided by Sri Lanka Telecom will enhance our capabilities by making operations smoother, giving us a competitive advantage. Also, it seamlessly connects our branch network including our cement-making plant in Cod Bay, China Bay, Trincomalee and the head office."

Ajantha Seneviratne, Chief Marketing and Sales Officer, SLT, commented, "We are greatly ho-noured that Tokyo Cement Company (Lanka) PLC, one of the first private sector cement manufacturing companies, has chosen our solution to meet their internal voice communication needs. We hope to see our relationship grow from strength to strength as we enable them to take hold of more opportunities in the future."
