

TONI&GUY Sri Lanka: Redefining the Art of Hairdressing

TONI&GUY.

For more than six decades, TONI&GUY has been at the forefront of global hairdressing, recognized for its creative vision, technical excellence, fashion-led approach, and commitment to professional education. Founded in London in 1963 by brothers Toni and Guy Mascolo, the brand evolved from a single salon into an internationally respected name, shaping the modern hairdressing worldwide. Today, this remarkable legacy continues in Sri Lanka through TONI&GUY Sri Lanka, bringing internationally acclaimed standards of hair artistry, innovation, and client

care to the local industry. Deeply connected to the world of fashion, TONI&GUY has consistently influenced contemporary hair trends while developing techniques that combine creativity with precision. Its longstanding association with London Fashion Week, together with its pioneering role in the unisex salon concept, reflects a philosophy built around fashion, education, innovation, and continuous professional development. In Sri Lanka, this philosophy is translated into a premium salon experience where every service begins with understanding the individual. Detailed consultations allow the professional team to consider hair type, condition, lifestyle, personal style, and desired results before recommending a tailored approach. Clients can experience precision cutting, bespoke styling, creative color, balayage, professional hair and scalp treatments, bridal hair, men's grooming, texture services, and luxury hair-care rituals. These services are supported by advanced techniques, premium professional products, and modern salon technology, with careful attention given to quality, consistency, and the health and integrity of the hair. By combining international expertise with talented local professionals, TONI&GUY Sri Lanka continues to elevate the standards of professional hairdressing in the country. More than simply delivering a salon service, the brand is committed to creating a refined and personalized experience built on trust, technical expertise, creativity, and attention to detail. Carrying forward more than 60 years of global heritage, TONI&GUY Sri Lanka continues to define premium hairdressing through fashion, education, innovation, and exceptional client service.
